Liberty Wildlife Practice Partners

<p>The Practice Partner Program is designed to allow both new volunteers and the Liberty Wildlife Education Animals to learn to work together safely. Volunteers must pass through Handling Class prior to beginning to work with Practice Partners.</p>			
<p>It can feel awkward to call someone you don't know and ask them to spend time teaching you. One way to become familiar with Practice Partners is to volunteer to go to programs with them in the beginning -- just to watch, listen and learn.</p>			
<p>Volunteers must be 'Signed Off' on birds before being allowed to handle them at education programs. The process for getting 'Signed Off' on each animals is as follows:</p>			
<p style="text-align: center;">3 Practice Partner sessions with the animal</p>			
<p style="text-align: center;">3 practice times with that same animal on your own -- 'solo'</p>			
<p style="text-align: center;">Final 'sign-off' session with a Practice Partner</p>			
<p>Log your sessions on your Personal Handling Logs. You do not have to do all 3 sessions with each animal with the same Practice Partner.</p>			
<p>For the safety of volunteers and animals, Practice Partners have the authority to ask that a volunteer do additional practice times before signing off. Volunteers must achieve sign off on level 1 birds before moving to level 2</p>			
<p>Please call Linda Scott with any questions</p>
