## Jacques

**SPECIES:** American Kestrel

**LOG #:** 23-397

**ARRIVAL DATE:** 2/15/23

**INJURY:** Imprint

A pool maintenance person found Jacques in a pool skimmer while he was working. Jacques showed signs of being imprinted upon arrival and already had falconry equipment on his leg. He appeared comfortable around humans, and was deemed non-releasable for this reason. He was quickly transferred to the education team and has become a welcome addition.

**NOTES:** Jacques was named after Jacques Cousteau, a French naval officer and oceanographer who invented the 'aqualung' in 1943.

**QUIRKS:** Needs a relationship.

**HANDLING TIPS:** Will fly until you develop a relationship. Find someone he knows to talk to him until he steps up for you alone.

**BOXING:** Boxes well.

**RETURNING:** Step off onto perch

**CAR SICK:** No
