Veto

SPECIES: American kestrel

LOG #: 08-2986

ARRIVAL DATE: July 28, 2008 as a juvenile

INJURY: Imprint

His rescuer kept him for three weeks and hand fed him so he is imprinted on humans.

QUIRKS: NOT TO BE USED DURING PUBLIC HOURS BUT STILL WANTS TO COME OUT.

HANDLING TIPS: Do not walk much with him as he has balance issues due to his toes

RETURNING: Step back onto perch

Stella

SPECIES: Western screech owl

LOG #: 12-1862

ARRIVAL DATE: 6/16/12

INJURY: Habituated

NOTES: Showing neurological signs/blindness due to age (NOT FOR PUBLIC KNOWLEDGE)

QUIRKS: NOT TO GO OFF-SITE - USE YOUR JUDGMENT ON DETERMINING IF SHE SHOULD BE USED FOR AN ON-SITE PROGRAM

HANDLING TIPS: Very good on glove.

RETURNING: Step back onto perch

Duncan

SPECIES: Red-tailed hawk

LOG #: 02-3290

ARRIVAL DATE: 2002 in Duncan, AZ

INJURY: Wing fractures with signs of imprinting

QUIRKS: Needs a relationship. He has issues with dogs and will bate repeatedly (may be a problem at long booths). **NOT TO GO OFF-SITE - USE YOUR JUDGMENT ON DETERMINING IF HE SHOULD BE USED FOR AN ON-SITE PROGRAM**

HANDLING TIPS: Sometimes “batey”. Sometimes tricky to get in mew. Move with confidence so he does not have time to go to ground. If he goes to the ground, try leaving and coming back twice. If on ground again, employ very respectful crowding to get back up to perch.

BOXING: Boxes well. Be vigilant in keeping leash secure as his bating style can easily tangle him in unsecured leash.

RETURNING: Step back onto perch

Bagheera

SPECIES: Red-tailed hawk

LOG #: 09-?

ARRIVAL DATE: April 2009

INJURY: retired falconry bird

QUIRKS: **Needs a relationship.** Once established he's very good about stepping up. Responds to "hup". **NOT TO GO OFF-SITE - USE YOUR JUDGMENT ON DETERMINING IF HE SHOULD BE USED FOR AN ON-SITE PROGRAM**

HANDLING TIPS: Good at single presentations where he does not have to box multiple times. Not good for long booths.

BOXING: Very good at boxing but use extra caution when removing from box as he bolts/rams his way out.

RETURNING: Step back onto perch

Monk

SPECIES: Cooper's hawk

LOG #: 12-2292

ARRIVAL DATE: July 7, 2012 (as a fledgling)

INJURY: healed fractured left wing and crooked keel

NOTES: **NOT TO GO OFF-SITE - USE YOUR JUDGMENT ON DETERMINING IF HE SHOULD BE USED FOR AN ON-SITE PROGRAM** Not good for long booths. Avoid programs where he needs to box and unbox for several presentations.

HANDLING TIPS: : Good on glove but flighty in mew. Will fly back and forth a couple of times before stepping up. Move at moderate speed with confidence. Will sit nicely on glove then have moment of exaggerated bating/flailing. Recovers and sits nicely again. Be careful of tail at all times.

BOXING: Okay at boxing, but be ready for him to "bolt" out of box. When traveling with him, place a towel over the top of the box to cover any light that might come in. Tends to bounce around in box and makes noise as well.

RETURNING: Step back onto perch

Cercei

SPECIES: Northern goshawk

LOG #: 11-2910

ARRIVAL DATE: May 2011 (as a juvenile)

INJURY: Fractured right wing and left shoulder

NOTES: Blind in right eye as of June 2024.

QUIRKS: Very heat sensitive. Needs a relationship. NOT TO GO OFF-SITE - USE YOUR JUDGMENT ON DETERMINING IF SHE SHOULD BE USED FOR AN ON-SITE PROGRAM

HANDLING TIPS: She tends to go to the ground the first time. Leave and come back. She needs help getting back to the glove if bating.

RETURNING:
