

Kid Stuff Nurturing Nature

‘Creatures of the Night... and Why They’re So Cool!’

Animals that are mainly active during the night are nocturnal animals. Watch these videos about common nocturnal animals you may hear or see at night.

Raccoon: <https://tinyurl.com/325m59zv>

Nighthawk: <https://animalia.bio/common-nighthawk>

Great Horned Owl: <https://www.youtube.com/watch?v=aWp8-Mu95OE>

Bats: <https://www.youtube.com/watch?v=9FVoTMOorXA>

What if you could find out which nocturnal animals are out in your neighborhood? Trail cameras help us discover nighttime animal activities.

This raccoon visited my backyard! Check out what time he was in

Scientists study nocturnal animals by going out to look for them. Watch this scientist go night exploring for tarantulas! <https://www.youtube.com/watch?v=xO-JCAJICnA>

YOU can be a scientist, too! Go on an Owl Prowl!
